Principal

A few years ago an automobile manufacturer used the slogan "It improves with age." This 1951 book will do just that. The many pictures and names will continue to serve as a valuable record of the activities and friendships of this school year. We extend a big "thank you" to the staffs and to all others who had a part in producing this 1951 S-I-S Boom.

Setting the tempo for our gala twentieth anniversary circus, South's concert band, under the direction of Mr. Shumate and student directors Lois Tilley and Dick Wenzel, played "Whip and Spur" and "Mississippi Muddle" to get the big show under way.

Elected by the student body, Roberta's court of four attendants included Patsy Ashbaugh, Pearline Callus, Marcia Flucke, and Rachel Tiedke.

Miss Faith King entertained the audience with her sixteen trained dogs. Sammy, a mischievous monkey, gave spice to the act.

Yippee! I felt like donning my ten gallon hat and buckling on my spurs when a chorus line of 16 girls out of the old west tap danced. It was really "Rhythm on the Ranch!" OUR ELEMENTARY

Sixth Grade, Room 262

Our sixth grade has done many enjoyable things this year. We have developed a new way of reading. Instead of reading in groups each person reads at his own rate. Some children have read as many as twenty-five or thirty books. During our study of India, we planned an imaginary trip, illustrated by a movie of pictures we drew. During our study of the Middle Ages we painted illuminations like those made by the monks. We have also enjoyed learning several square dances.

Fifth and Sixth Grade, Room 214

Our room has made many articles for the Junior Red Cross, such as nut cups, menu covers, napkin holders, and place cards and a poster. We wrote Red Cross speeches and filled Red Cross boxes.

In Social Studies the sixth grade studied South America, India, China and the countries of Europe. The fifth grade studied North America, Hawaii and our other possessions.

In Science we studied insects, teeth, health, safety and electricity.

The sixth grade worked out a dramatization on the Inca Indians. The fifth grade dramatized the story of Roger Williams.

Fifth Grade, Room 260

By writing letters to childern in other states we have made many friends and learned many interesting facts about our country.

For Junior Red Cross we made many articles such as nut cups, tallies and place mats. We were proud to have Ann Leesch represent our school at the contest for Red Cross talks.

The most interesting event of the year was the presentation of our puppet play, "Famous Americans." We made our own theater, too. We have had lots of fun square dancing and playing tonettes. Doris Felmly became a good caller.

Fourth Grade, 252

We learned about many different countries and regions and saw films about them. "Farmer-Fisherman in Norway" was a very interesting movie.

For science we studied about fall flowers, birds, light, and rubber. Some childen brought ants, and earthworms to watch.

We had fun making a movie for the Jungle.

Everyone helped to fill a Junior Red Cross box.

Many children brought plants for our room.

Fourth Grade, Room 254

Of all the places we studied in Social Studies this year, we enjoyed the Belgian Congo most. We made a native village with a jungle background while studying the Congo. Other places we studied were the cold lands, the deserts, Holland, Norway, and Switzerland. In science we enjoyed the study of the sun's family. We took imaginary trips to the sun. moon, and planets.

Third Grade, Room 162

Third Grade had fun living as pioneers and Indians, building a large log cabin complete with loft, candles, patch work quilts and fireplace. The Indian wigwam made of bark illustrated the type of homes which the Sauk's of Saginaw lived in. This was climaxed with a five act Indian play written by the group and presented to other rooms.

Third Grade, Room 258

We began the year with a study of Indians. We made a trading post, a tepee, dolls, pottery, head-dresses, and drums. In our study of pioneers, we made notebooks about the different phases of pioneer life.

Being interested in the weather, we made a chart and kept a daily record of the temperature.

Second Grade, Room 160

We began the year by learning about farms and farmers' markets. We went to visit the farmers' market. Then we built a market in our room, which we later changed into a grocery store. We found out where many differerent foods come from.

We learned about the months of the year by making a calendar for a Christmas present.

Second Grade, Room 256

At the beginning of the year, we studied safety, boats, airplanes, trains, and different ways of traveling. When we studied the post office, we built one of our own and visited a real one. We learned new songs, wrote stories, read many books, and worked on improving our writing.

First Grade, Room 158

We have learned to read and write. We enjoyed reading many interesting stories and have worked some of them into puppet plays. We liked our rhythmic songs and games. We have fun with the rhythm instruments.

We studied the fire station too. We visited a fire station and learned how firemen work together.

First Grade, 152

We have had a very busy year learning to read and write. One day we made rolls and butter. They tasted even better than we thought they would.

We enjoyed our visit to a farm where we saw farm animals and machinery.

SIS SNOOPER

With the girls gaily dressed in their new clothes for spring,
Our 9A class made the banquet hall ring.
While wandering through with my favorite beau,
These couples I found that I happened to know.
Harbert and Hanson were the first two I spied,
As he opened the door and I stepped inside.
Greeted with the atmosphere light and gay,
We saw the couples go their happy way.
Down through the rows of tables walking,
Were Flucke and Murdock, busily talking.
Partaking of some of the delicious food,
We found Ruskin and Stormont in a party mood.
After dinner out on the dance floor,
Sommers and Barth seemed to know the score.
A pair that we see most everywhere,
Davis and Ure also were there.
We caught Marilyn Kelly and Dicker Day,
Chatting together in their own gay way.
There was plenty of food and amusement for all,
As reported to us by Thomas and Hall.
It was Denny Blanchet escorting Roberta Krenz,
They had a fine time chatting with all their friends.
Ashbaugh and Hempstead were there together,
Their faces aglow and all was fair weather.
Arlene Beehler and her escort Dale Thiel
Were there together enjoying the meal.
Rifkin and Leslie came looking their best,
Extending a greeting to all the rest,
Dick Weinberg seemed extremely proud,
As he escorted Rachel Tiedke through the happy crowd.
Durman and Wright were a welcome sight,
As they attended the banquet that gala night.
Arden Beehler and Barbara Stone,
Added to the banquet a happy tone.
But now we leave our friends so dear,
For it's the end of this column and the end of the year.
